

## **MOLECULAR LABORATORY TECHNOLOGIST**

KEW, Inc. is a privately-held cancer precision medicine company with headquarters in Cambridge, MA. We are revolutionizing cancer care by providing personalized therapeutic options based on an individual patient's tumor genomic profile with CANCERPLEX®, our flagship clinical platform which includes advanced gene sequencing coupled with an expanding proprietary bioinformatic database.

We offer an exciting opportunity to work at the forefront of personalized medicine. Our employees are tirelessly committed to improving the lives of cancer patients across the globe.

The promising candidate will possess the willingness and ability to take initiative, and to work effectively and productively in a team-oriented environment while maintaining a strong sense of integrity and confidentiality.

### **The Role:**

We are currently seeking Molecular Laboratory Technologist to perform molecular biology procedures in our growing CLIA/CAP-certified clinical lab in Cambridge, MA. The scope of this role will include routine sample prep and processing through our workflow in accordance with our established Technical Operating Procedures.

### **Primary Responsibilities:**

- Perform complex molecular biology techniques (DNA extraction, QPCR, RT-PCR, Next Gen Sequencing) under the direct supervision of the Laboratory Manager/Technical Supervisor;
- Operate in accordance and compliance with all internal and external Technical Operating Procedures;
- Maintain detailed, accurate and up-to-date documentation using our electronic LIMS system;
- Perform other duties as assigned.

### **Qualifications:**

- BS in science-related field with 1 year of experience in High Complexity Testing or AS with 2 years of experience in High Complexity Testing;
- 1+ years of experience working with human clinical specimens;
- 1-5 years of experience working with cell and/or molecular biology techniques in laboratory setting (CLIA/CAP preferred);
- Familiarity with LIMS systems;
- Proficiency with MS Office applications (Word, Excel, Outlook, PowerPoint, etc.);
- Must have excellent English oral and written communication skills;
- Must be organized and have strong attention to detail;
- Must be able to work in the US.

### **What KEW Offers:**

- Competitive compensation and benefits package
- Location in center of Cambridge's vibrant academic and biotech community
- Commitment to a fun, high-spirited, team-driven culture
- Commitment to employee development and growth

Interested candidates should submit their resume in Word or PDF format to [careers@kewinc.com](mailto:careers@kewinc.com) with **Molecular Laboratory Technologist** in the subject line.

**Equal Opportunity Employment:**

At KEW, our policy is to provide equal employment opportunity to all qualified individuals and the Company does not discriminate against any applicant because of race, creed, color, age, national origin, ancestry, religion, gender, sexual orientation, disability, genetic information, veteran status, military status, application for military service or any other class protected by state or federal law.

**To Employment Agencies:**

KEW will only accept resumes from employment agencies who have been contracted with the Company to work with us. KEW will not be responsible for any fees related to unsolicited resumes.
